

I wish to register my very strong opposition to your possible revision of Indiana's telephone privacy laws. There is little doubt in my mind that it is my absolute right to not have to waste my time answering the phone only to find some unwanted solicitation on the other end--- and especially at all hours of the day and NIGHT. How can this even be considered? I am 70 years old and do not need to be harrassed in my own home! I must say that my "telephone life" has improved significantly since Indiana passed its new law. I used to get 15-20 calls every day and night as did my 90 plus year oild parents. Now, it is perhaps 1-2 each week! Do not chnage this. Use your time and resources to IMPROVE our phone service--- not worsen it!
